About the Participant Service Charter

Participants are people with disability who take part in the National Disability Insurance Scheme.

We call it the NDIS.

Participants are the most important part of all the work we do.

We want participants to make their own decisions about their lives.

And we want to support everyone who uses the NDIS.

This includes:

- children and young people

- adults

- parents and families

- people who want to join the NDIS.

We updated the Participant Service Charter based on changes to the law.

The Participant Service Charter explains what you can expect from the NDIS.

We want you to have a good experience when you use the NDIS.

When we work with you, we will be:

- transparent

- responsive

- respectful.

We will also:

- be empowering

- connect with you.

We talk about each of these things in more detail on the following pages.

How will we be transparent?

When we are **transparent**, we will make it easy to understand our information and decisions.

To be transparent we will make sure our information is easy to:

- understand
- find and use.

To be transparent, we will:

- stay in touch with you

- tell you what's happening.

And we will:

- communicate with you in a way that you want

- explain the decisions that we make

- answer your questions.

How will we be responsive?

When we are **responsive**, we will help you with what you need.

To be responsive we will make decisions on time.

You can find out more about this on page **20**.

We will also give you one person to contact so you only have to tell your story once.

And we will give you options and choices if your life changes.

How will we be respectful?

When we are **respectful**, we treat you like an individual.

To be respectful, we will:

- listen to you
- work together with you.

And we will make sure our staff understand your disability and **diversity**.

Diversity is what makes people different from each other.

We will also use your **feedback** to learn.

When you give feedback, you tell someone what:

- they do well
- needs to be fixed.

How will we be empowering?

When we are **empowering**, we help you live your life the way you want.

We help you find and use information.

To be empowering we will:

- make what we do easy to understand
- make working with us easy.

And we will give you information to help make sure you:

- can make decisions
- have support to make decisions.

We will also explain your **rights** to you so you know how you can expect to be treated.

Rights are rules about how everyone should be treated fairly and equally.

We will also make sure you have a say about what is in your plan.

And we will listen and work with people with disability so we can learn from their experiences.

How will we connect with you?

When we **connect** with you, we help you find the supports and services you need.

To connect with you, we will give you choices about how you communicate with us.

And we will help you:

- use your plan in a way that's right for you

- find supports and services.

We will also connect with the community.

This will help them know about the NDIS and how it works.

And we will connect with people from different communities across Australia.

This includes:

- people from First Nations communities

- people who speak languages other than English.

It also includes people from different **cultures** and backgrounds.

Your culture is:

- your way of life and beliefs
- what is important to you.

And it includes people from **LGBTIQA+** communities.

The letters LGBTIQA stand for lesbian, gay, bisexual, transgender, intersex, queer or questioning and asexual.

The '+' is for people who are part of the LGBTIQA+ community but don't talk about themselves using a word from this list.

What can you expect?

You can expect us to do things on time,
including:

- making decisions

- giving you information

- reviewing a decision.

How will we know if this Charter is working?

We will know if this Charter is working if we provide services on time.

We will ask people how they think we are doing.

We will use a survey every 3 months to ask people what they think.

We will share how well we reach the targets that we explained on pages **21–23**.

We will include this information in our Quarterly Report.

And we share this with disability ministers.

You can find an Easy Read version of the Quarterly Report on our website.

www.ndis.gov.au/about-us/publications/quarterly-reports

The **Commonwealth Ombudsman** will also write a report each year.

The Commonwealth Ombudsman helps people who made a complaint about government services.

It will be easier for you to work towards your goals.

Your goals were used to make your plan.

Your goals should also be about things you want to work towards with the help of:

- the NDIS
- other supports and services.

For example, your goal might be to find and keep a job.

We will listen to you if you give us feedback.

We believe that we can make a real difference for people with disability in our community.

This will happen if we:

- do a good job
- do what we say we will do in this Participant Service Charter.

We will update the charter from time to time.

We will share the charter on our website when we update it.
